Ida,

Could you please save the email below to Mary River's Mod 5 folder?

Thanks,

Assol Kubeisinoва-

Good afternoon Assol,

Thank-you for sending the as built plan for the crusher pad. We can see that the pad dimensions follow more closely what the inspectors have reported to us, and that the proposed pond dimensions are adequate for the actual size of the pad.

Crown-Indigenous Relations and Northern Affairs Canada is satisfied with the material presented by Baffinland with regards to the crusher pad and pond.

Regards,

Sarah

Hi Sarah, Wajid,

Is CIRNAC satisfied with BIMC's response in regards to the crusher pad dimensions?

Thank you,

Assol Kubeisinova- ᠠᠰᠣᠯ ᠬᠤᠪᠡᠰᠢᠨᠣᠪᠠ

Hello Assol,

On behalf of Baffinland Iron Mines Corporation (Baffinland), please find attached to this email the As Built drawing for the Crusher Pad Expansion at the Mary River Project Mine Site, completed under Modification Request No. 1 of the Type 'A' Water Licence 2AM-MRY1325.

Additionally, this drawing is provided further to the teleconference held on 13 July 2018 between Baffinland, the Nunavut Water Board (NWB) and Crown Indigenous Relations and Northern Affairs Canada (CIRNAC). During the teleconference, CIRNAC indicated that clarification on the existing footprint of the crusher pad was required to support submission of the Design Brief and Issued for Construction (IFC) drawings for the Crusher Pad Pond Expansion. The attached as built provides clarification that the existing footprint of the Crusher Pad is less than the 107,500 m².

As this submission addresses the last remaining comment on the Crusher Pad Pond Expansion (Modification No. 5, Submission of IFCs per Modification No. 1), Baffinland requests the NWB provide final guidance and approval of this Modification Request. Should there be any remaining questions or concerns, please feel free to contact me to discuss.

Thank you,
