Fri, Sep 7, 2018 at 1:47 PM

Good afternoon Chris,

Thank you for your submission. Please find the following comments to the documentation provided:

1. NWB has no record of receiving a 2018 Work Plan Addendum on June 28, 2018.
2. Could you please confirm if the request for landfill expansion involves constructing only cell 2 or cells 2-5?
3. In respect of both entries in Table 2 of your submission under the "Theme" entitled "Freshwater Aquatic Environment", please note the Licence condition set out in Part D, Item 25: "The Licensee shall prevent the deposition of debris or sediment from entering into or onto any Water body, with respect to the construction of access roads, site laydown pads and areas or other earthworks. These materials shall be disposed of at a distance of at least thirty-one (31) metres from the ordinary High Water Mark in such a manner that they do not enter the Water."
4. In respect of section 3.1.4 of your submission, please provide the information required as per Part G, Item 3(d). In addition, please add the BAF-PH1-320-T07-0004 "Landfill Maintenance and Operation Manual" to the list of the documents to be updated.
5. The "Fresh Water Supply, Sewage, and Wastewater Management Plan" states the following about the effluent from the Weatherhaven sewage treatment plant: "Once sampling indicates that effluent is meeting discharge criteria the treated effluent stream is directed to discharge via pipeline to the Mary River discharge locations". It contradicts the statement made in BIMC's submission ("Treated sewage effluent from the camp's dedicated sewage treatment plant is currently transported by truck to the approved discharge location near Mary River"). Could you please clarify the reason for the difference in these statements?
6. Is there a construction summary report filed for Modification 4?

Regards,

Assol Kubeisinova- ᠠᠰᠣᠯ ᠬᠤᠪᠡᠰᠢᠨᠣᠪᠠ
