Hi Sean,

As we have discussed, Baffinland is expecting that there will be a delay in approving the Modification Request for the Milne Port Camp Upgrade and associated Water Diversion System around the constructed pad. In order to comply with the Inspector's Direction and complete construction works prior to the ground freezing, Baffinland requests (see attached letter) that the NWB provide either an indication that the Modification Request for the Milne Camp Upgrade will be processed quickly or provide direction to Baffinland to indicate that the proposed Surface Water Diversion System around the pad can be constructed.

Please let us know if you have questions about this request for direction,

Thanks, Wayne
