Good Day,

Technical Memorandum provided to CIRNA by baffinland and Golder Associates dated: April 17,2017 Titled: **CRUSHER PAD EXPANSION DETAILED DESGIN BRIEF, MARY RIVER PROJECT, NUNAVUT.**

The plan provided by Baffinland suggest the limit of the stockpile is smaller than what it appears to be on site, therefore this may affect the calculations regarding the size of the sedimentation pond.

Please consider this while reviewing/ approving the recent Modification Request regarding the ore crusher pad sedimentation pond expansion. It would be ideal if a Baffinland could provide current as-built drawings of this facility prior
