Re: Submission of the Final Aquatic Effects Monitoring Plan (AEMP)

To Phyllis,

In accordance with Part I, Item 2 of the Type A Water Licence #2AM-MRY1325, please find attached Baffinland's Aquatic Effects Monitoring Plan (AEMP) for the Mary River Project. In addition, Schedule I of the licence, Conditions Applying to General and Aquatic Effects Monitoring, have been considered and incorporated where relevant.

The AEMP was developed over multiple rounds of consultation with relevant federal and territorial parties on several iterations of an AEMP Framework. Refer to section 1.3 of the AEMP for a summary of consultations relevant to the development of the AEMP.

Please contact me directly should you have any questions about the document.

Sincerely,

Oliver Curran
Director, Sustainable Development
