Hi Phyllis. Not thrilled about the request given that they were involved with the development of the AEMP and that they have had it since last July. Almost 1 year!

However, we understand the multiple demands and there is some merit in combining their efforts with NIRB and NWB.

Therefore BIM can accept the request.

Thanks,

Oliver

Subject: Fwd: 150602 2AM-MRY1325 Env. Canada Request Extension AEMP and AR-OMLE

Please advise if this further extension to comment deadline is acceptable to Baffinland.

Thanks.

Good afternoon,

Environment Canada have requested an extension to the commenting period for the AEMP and AR Plan to coincide with NIRB's June 26, 2015 deadline..

EC advises "Due to overlapping demands our expert reviewers will be unable to complete the review of Baffinland's AEMP and A&R plan by the NWB's June 6 deadline. EC is therefore requesting an extension to the commenting period. Environment Canada notes that the NIRB has circulated Baffinland's 2014 Annual Monitoring Report for comment and that the AEMP and A&R plans were provided as supporting documents for the Annual Monitoring Report. In the interest of efficiency Environment Canada is proposing to submit one comment letter that combines our comments for both the NWB and NIRB processes. With that in mind EC is requesting that the NWB extend their commenting deadline to align with NIRB's June 26 deadline."

Please advise if this extension is acceptable.

Regards,
