Hi Jamie,

Thank you for your email and the study design. INAC appreciates the open correspondence and dialogue.

At this time INAC will not comment on the information provided as it falls outside the current ongoing Water Licence process. If AEM wishes to have their study design reviewed INAC recommends it be sent to the NWB for consideration. This would make the process transparent to all, and allowing other parties with a vested interest the ability to comment (ECCC, DFO, NRCAN) as well the land owner would most likely want to see and review this document as well.

Regards,

Ian Parsons

A/Manager Water Resources
