The Government of Nunavut's mandate is focused on four priorities; the two most relevant to this context include:

- Economic growth through responsible development across all sectors;
- Good governance through wise use of our resources.

## Our policies

$\Delta \Gamma^c \Delta D_L L^{\geq c} \triangleright d_{\alpha}^{a_i} j^{a_j} L^{\geq c}$   
 $\cap \cap^{a_b b} \triangleright \sigma^b$ :

- $\langle \varphi_Q \rangle_{\mathcal{N}} - \langle \varphi_Q \rangle_{\mathcal{N}'} \leq \frac{1}{2} \left( \langle \varphi_Q \rangle_{\mathcal{N}} + \langle \varphi_Q \rangle_{\mathcal{N}'} \right)$
- $\langle \varphi_Q \rangle_{\mathcal{N}} - \langle \varphi_Q \rangle_{\mathcal{N}'} \leq \frac{1}{2} \left( \langle \varphi_Q \rangle_{\mathcal{N}} + \langle \varphi_Q \rangle_{\mathcal{N}'} \right)$
- $\langle \varphi_Q \rangle_{\mathcal{N}} - \langle \varphi_Q \rangle_{\mathcal{N}'} \leq \frac{1}{2} \left( \langle \varphi_Q \rangle_{\mathcal{N}} + \langle \varphi_Q \rangle_{\mathcal{N}'} \right)$

Many of our policies are derived from these strategic documents:

- **Parnautiit** – Mineral Exploration and Mining Strategy
- **Ingirrasiliqta** – Transportation Strategy
- **Tunngasaiji** – Tourism Strategy

# Parnautit

[illegible]

- [illegible]

Under *Parnautit*, the GN's mineral exploration and mining strategy, the goal is:

- “To create the conditions for a strong and sustainable minerals industry that contributes to a high and sustainable quality of life for all Nunavummiut.”
- “At all times we must recognize the importance of protecting our environment and ensuring that the environmental effects of mining are always minimized and that the industry earns respect and acknowledgement as being a guardian of a clean and healthy environment.”

Our legislation

[illegible]

- [illegible]

Relevant legislation and regulations include, but are not limited to:

- *Wildlife Act*
- *Environmental Protection Act*
- *Public Health Act*
- *Scientists Act*
- *Official Languages Act*
- *Nunavut Archaeological and Palaeontological Sites Regulations*

# Haul road safety and management (GN-01)

፲፱፻፳፯ ሰላም ላይ ሲገኝ፡

- [illegible]

## The GN recommends:

- The proponent extend its obligations under Meadowbank project certificate condition #32 (amended) to the operation of the Whale Tail Haul Road (GN-01)
  - Posting signs to warn of unauthorized use, advertise the private nature of the road, and track and report unauthorized use of the road

$\triangleleft^{\epsilon_b} d \cap^{\epsilon_b} \sigma^{\epsilon_b}$      $\perp_{\Gamma^b}$      $\triangleleft^{\epsilon_b} C \triangleright^{\epsilon_b} C \nearrow^{\epsilon_b} \triangleright^{\epsilon_b} \sigma^b$

$\frac{d}{dt} \left( \frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$

- [illegible]

## The GN recommends:

- The proponent consider potential responses if land users are found to use the haul road to access traditional areas in the project area

**Socio-economic monitoring (GN-03)**

መግቢያ ስራ ለማግኘት ማስታወሻ:

- [illegible]

## The GN recommends:

- The proponent commit to continuing existing monitoring initiatives, including participation in the Kivalliq Socio-Economic Monitoring Committee (Kiv-SEMC) meetings, and expanding the scope of the Meadowbank Socio-Economic Monitoring Program (SEMP) to include activities at the Whale Tail site

The GN recommends:

- The caribou management measures presented in the TEMP be revised to address its outstanding concerns, including:
  - Distance threshold triggers should be increased, and group-size thresholds should be reassessed.
  - Mitigation measures to reduce sensory disturbances should range from localized adjustments in activities up to possible site-wide shutdowns for certain activities
  - Discretionary management measures should be reduced
  - Adaptive management decision trees should be developed

[illegible]

## The GN recommends:

- The TEMP should be revised to include a range of adaptive management provisions (up to stoppage of aircraft operations), based on species, group size, proximity to the Project and season
- Criteria governing use of deterrents to move animals away from the Project's airstrips and helipads are required
