- Agnico Eagle is committed to operating in a safe, socially, and environmentally responsible manner in accordance with terms and conditions of a Water Licence for:
 - The collection, use, management, and reuse of water
 - The collection, use, and management of waste
 - Any discharges to the receiving environment
- Agnico Eagle has in place a systematic adaptive management approach to decision making whereby operational practices can be adapted and adjusted as required to reduce or eliminate any unforeseen negative impacts throughout the life of the Project

HIGHLY TRAINED EMERGENCY AND RESPONSE TEAM (ERT) dd°

- Designated Emergency Response Team (ERT) consisting of on-site personnel has been established at Meadowbank and another team will be established at Whale Tail
- All members of the teams are trained and familiar with emergency and spill response resources, including their location and access, the SCP, and appropriate emergency spill response methodologies
- 7 The following training is included:
 - A review of the spill response plan and responsibilities of the ERT members;
 - The nature, status, and location of fuel and chemical storage facilities;
 - The on-site and off-site spill response equipment and how to use it:
 - Emergency contact lists;
 - Desktop exercises of "worst case" scenarios; and
 - The likely causes and possible effects of spills.
