Good day Richard

This email is to request an extension regarding the submission of the 2021 Annual Report, required under Water License 2AM-MEA1530 and 2AM-WTP1830, due on March 31, 2022. At this time, Agnico would like to request a two-week extension, where Agnico Eagle will submit the consolidated report on or before April 15, 2022. Agnico is actually experiencing some delays and is requesting this extension to ensure all the reports from consultants are received and integrated in the report before the official submission date. The number of information to be analyses and summarize in the main report is also of importance and we will need more time to review it to ensure we provide you with a report of quality. Agnico already have resources fully dedicated to the completion of the annual report to ensure the submission of the report will be done on or before April 15, 2022, if the extension is granted.

Thanks for your consideration.
