Hi Assol,

Thanks for your question. We realized that we should clarify our statement related to the Adaptive Management Plan approval. Based on our review, we should delete the 'currently under the NWB approval process'. In the next year, Agnico Eagle is planning initiating the assessment of the Adaptive Management Plan with the NIRB as per the Reasons for Decision letter. However, Agnico is of the opinion that the proposed thresholds and some of the current mitigations measures presented in the Adaptive Management Plan are adequate and should be considered and implement if threshold are triggered.

Let us know if you want to discuss this more in details and we can organized a call.

Regards,

From: Assol Kubeisinova <assol.kubeisinova@nwb-oen.ca>
