Hello Richard,

In its latest submission to the NWB on the above-noted design report, CIRNAC recommended that *"the design report be updated to include or incorporate the appropriate information provided by AEM in its response package."* CIRNAC confirms that this recommendation has been implemented in the revised design report.

Regards,

David.

Good morning,

The Nunavut Water Board requests confirmation by **January 16, 2019** whether or not revised design report addresses CIRNAC concerns, it has been saved to the ftp site at the link below.
