CAUTION: EXTERNAL

Hi Rowan,

Thank you for taking time this morning to speak to me about the incident. I understand from our call that the location is difficult to access. Could you please confirm the location with a map? I am wondering about the disposal location, I am not familiar with the approval to dump food waste into the land farm. My immediate concern is that it will become a wildlife attractant. Where is the grease normally disposed of? My understand is in the past the tailing facility was used as an alternative disposal.

Please let me know your thoughts.

Regards,

Christine Wilson, EP
