Dear Sir/Madam,

SUBJECT: MARCH 2007 MONTH-END REPORT FOR WATER LICENSE: 2BB-BOS0106

ENVIRONMENTAL SUMMARY

The 2007 Exploration program at the Boston Camp concentrated on re-logging of the old cores. No new drilling were conducted in March. The support services were concentrated on getting the camp ready for both land and lake based drilling towards third week of April 2007.

No water samples were collected at Boston during the month. No environmental incidences were reported as well. Non-combustible wastes continued to be backhauled offsite.

ENVIRONMENTAL INCIDENTENCE

There were no environmental incidents reported during the month of March. The year-to-date reported incidents stands at 1.

DRILL SITE INSPECTIONS & WATER SAMPLES

Water samples will be collected before drilling is conducted at Stickle and Spyder Lakes.

DOMESTIC WATER SOURCE

Potable water drawn from Spyder Lake for camp use. The daily water usage at camp averaged at 0.18 m³ in March. The year-to-date cumulative water abstraction at the end of March was 2.55 m³.

NON-COMBUSTIBLE WASTES

Removal of non-combustible wastes continued from 2006. A total of 30 empty 45-gallon drums were backhauled to Yellowknife for proper disposal. A further 22 pallets of scrape metals were also backhauled in March.

VISITS AND REQUESTS FROM NWB AND KIA

No requests were received from either Nunavut Water Board or Kitikmeot Inuit Association during the reporting period.

Sincerely,

Miramar Hope Bay Limited
