Re: April 2013 – Monthly Monitoring Report for Water Licence 2BB-BOS1217

Boston Camp was shut down in November 2011 and has not been reopened since that time. Over the course of this past winter, winter inspections were conducted at the Boston site approximately once per month. Reports were provided to the AANDC inspector. The last winter inspection was conducted March 19, 2013 just prior to Doris Camp reopening for the season.

1. Part D Items 9 and 19 (also Part J Items 8 and 11): Containment Pond, Bulk Fuel Containment, and Landfarm

Water was not discharged from BOS-6 (landfarm), BOS-5 (bulk fuel containment) or BOS-2 (containment pond).

2. Part J Item 2: Water Use Volumes

No water was used as the camp was not operational.

3. Part J Item 3: Mine Water Discharge Volumes

Mine water was not pumped from underground during this period.

4. Part J Items 4 and 5: Sewage Treatment Effluent and Sewage Sludge

Effluent was not discharged at BOS-3 and no sludge was removed from the sewage disposal facility.

5. Part J Items 6 and 7: Water Source Coordinates

GPS coordinates of locations of water sources and waste associated with camp and drilling activities are kept on file. At this time, there are no water sources being used and no wastes being produced.

6. Part J Item 9 and 10: Sewage Treatment Plant Effluent

No samples were taken from monitoring station BOS-3 or BOS-4 as the sewage disposal facility was not operational.

7. Part J Item 11 and 12: Seepage monitoring

There was no seepage observed this month due to freezing conditions.

8. Part J Item 14: Under-Ice Drilling Sampling

Under-ice water quality samples were not collected because no drilling took place this month.

Incident Reporting

No incidents pertaining to this licence occurred during this month.
