Good Afternoon,

While conducting the Technical Review to the file Madrid Advanced Exploration Program, I found a number of issues that need to be addressed before the file is sent to external reviewers.

I am requesting additional information concerning:

### 1) Water Licence Application Form, Block 4

Issue: location of offices is undetermined

- Please, provide coordinates of the proposed offices location

### 2) Appendix 2 NWB SIG

#### 2a) page 5, Other Authorizations, Section No.23,

Issue: Provide formal applications to the Navigable Waters Protection Program (NWPP) for any works, the answer is not clear

- The answer refers to the Supplemental Information Report, Section 5.3.2 , 5.4 and Appendix 5. It is not clear how the answer is related to the question; could you elaborate further on this issue?

#### 2b) page 10, Exploration Activities, Sections No.5 and 6

Issue: Indicate the size (in tonnes) and number of samples that will be obtained. Numbers are not provided

Issue: Indicate the present (or proposed) average rate of exploratory production in tonnes of ore/day. Numbers are not provided

- • Please, provide the size and number of samples that will be obtained in the course of the proposed exploration activity
- • Please, provide the average rate of exploratory production from all mineralize sources in tonnes of ore/day in the course of the proposed exploration activity average rate of exploratory production from all mineralized sources in tonnes of ore/day.

Furthermore, in order to proceed to the next stage of the Licensing process (external review), issue 2b) must be answered as indicated in the SIG.

Regards

Sonia Aredes
