Attachment B – Photos of Sampling Locations of 2017 Construction Rock

Photo: South apron at airstrip looking east. Sampling location of 17-QR-01

Photo: Sample 17-QR-01

Photo: Metavolcanic rock with K-feldspar and carbonate veins at south apron of the airstrip, near 17-QR-01

Photo: Bridge on TIA Access Road and two tailings catchment basins, looking north. Sampling location of 17-QR-02 and 17-QR-03.

Photo: Sampling location of 17-QR-02

Photo: Sampling location of 17-QR-03

Photo: Cyanide Reagent Pad looking northwest. Sampling location of 17-QR-04

Photo: Cyanide Reagent Pad looking northwest. Sampling location of 17-QR-04

Photo: Basalt sample with epidote vein at Cyanide Reagent Pad (not sampled)

Photo: TIA Access Road looking southeast. Approximate location of start of TIA road monitoring.

Photo: TIA Access Road looking south. Starting location of TIA road monitoring for 2017.

Photo: Metavolcanic sample with visible disseminated pyrite at the TIA Road near 17-QR-05
