

Renewal licence 2BE-MEA0813

Non-technical summary

In order to find new mineralized zones, Agnico-Eagle, Exploration Division, wants to continue to explore the area of the Meadowbank mine. The exploration work consists of prospecting, trenching, drilling and geophysics activities. To continue this work, Agnico-Eagle needs to renew its Nunavut Water Board's Licence 2BE-MEA0813. Also, Agnico-Eagle wants to add two exploration areas to this licence. The IVR area is located to the northwest of the Meadowbank mine, approximately at 50km. The south Meadowbank area is located near of the mine at the West and South.
