Meeting	2019-02-21	Feb 21: Hamlet Council Meeting (Baker)	Providing information on AEM's tank farm construction. Additional discussion on community advertisement, community's need for gravel to resurface roads, and request to purchase old AEM crusher.	Rankin Inlet, NU, CA (City)	Meadowbank
Meeting	2019-03-15	March 15 - Chesterfield Inlet Community Concerns re: Emergency Management Planning and Spill Response Capabilities Coast Guard, GN, AEM	Purpose: Meeting for all of us to collaborate on addressing a concern that the Hamlet of Chesterfield Inlet has raised wrt to local spill response equipment and capacity; roles and responsibilities, etc. Outcomes: -AEM will contact coast guard to understand use of emergency response equipment, follow up at next meeting		Nunavut
Consultation	2019-03-18	March 18/19 - Whale Cove Exploration update	Presentation and meetings on Whale Cove exploration program, including meeting with Hamlet, HTO, and a public open house.	Whale Cove, NU, CA (City)	Exploration
Consultation	2019-03-26	March 26 - WTP2 Fisheries & Schedule II, Fuel Farm - Elders Session	The Elders' meeting provided ample discussion and sharing with the Elders. They showed a lot of interest in the dewatering of Whale Tail Lake and the relocation of fish, and shared insights about the potential effects on predator-prey relationships and other environmental effects. They also shared a common concern that animals and fish are not as fat as they used to be, and that the texture of the meat has changed. For the upcoming fuel farm construction, there was some concern that Inuit rights to access the land could be affected, as many people access the land via the road near the fuel farm. Agnico will work with the HTO and others to ensure that effects are managed. There was interest in the idea of a hatchery. Although some Elders have concerns that it is unnatural, they largely seemed supportive of learning more about what would be involved.	Baker Lake, NU, CA (City)	Meadowbank
Consultation	2019-03-26	March 26 - WTP2 Fisheries & Schedule II, Fuel Farm - Hamlet Meeting	The meeting with the Hamlet provided an opportunity to discuss updates for the Whale Tail Pit and fuel farm, the water management alternatives assessment (for the Whale Tail Pit expansion), and fish habitat compensation options such as a hatchery. The council members were interested in potential jobs for Baker Lake residents, as well as possibly obtaining crushed rock from Agnico to help with fixing the roads in the village. They were also interested in exploring the possibility of establishing a proof-of-concept hatchery.	Baker Lake, NU, CA (City)	Meadowbank
Consultation	2019-03-26	March 26 - WTP2 Fisheries & Schedule II, Fuel Farm - Youth Session	A small group of youth attended the meeting; two had been involved in the meeting in July 2018, and two were new to the Agnico consultation program. The group showed interest in the description about the hatchery, but otherwise were not very conversational.	Baker Lake, NU, CA (City)	Meadowbank
Consultation	2019-03-26	March 26 - WTP2 Fisheries & Schedule II, Fuel Farm - Open House	A small group of Baker Lake residents attended the community consultation event, providing an opportunity to have an informal discussion and answer questions. Questions covered topics related to mining, the environment, and possible projects for fish habitat compensation.	Baker Lake, NU, CA (City)	Meadowbank
Consultation	2019-03-28	March 28 - WTP2 Fisheries & Schedule II, Fuel Farm - Womens Session	AEM ran through the fuel farm expansion and Whale Tail Pit schedule II and fisheries offsetting options and then closed the session with a round table discussion on programs that the women would like to see in the community.	Baker Lake, NU, CA (City)	Meadowbank
Consultation	2019-03-29	March 29 - WTP2 Fisheries & Schedule II, Fuel Farm - KIA Session	AEM ran through the fuel farm expansion and Whale Tail Pit schedule II and fisheries offsetting options and the session closed with a general discussion around mental health and wellness. There were no major concerns around the selected water management options or fuel farm expansion, and similarly to the women's group, the KIA expressed desire for more frequent project updates and the need for AEM to be communicating in a way that was more accessible to community members, especially elders (Radio Show). The Hatchery idea was well received, and they expressed the desire to see a proof of concept this season. The group expressed interest in having a hatchery in town. No comment on the water management option selection & attenuation pond, There was brief discussion around the IIBA On-Site Working Group (OSWG).	Baker Lake, NU, CA (City)	Meadowbank
Meeting	2019-03-29	March 29 - Baker Lake - Meeting with Quality of Life Secretariat	Discussion on counselling services, cultural competency training, embrace life council and services provided through Quality of Life Secretariat.	Baker Lake, NU, CA (City)	Nunavut
Meeting	2019-04-16	2019 Annual SEMC meeting	Purpose: The purpose of the SEMCs is to monitor the socio-economic impacts in each region to fulfill the requirements that may be specified in the terms and conditions of a Project Certificate issued to NIRB. Outcomes: (Main outcomes related to SEMR and socio-economic work) - Present social closure planning work to SEMC in 2020 - Look into effect of transient workforce as possible reason to anecdotal evidence of increasing population in Rankin Inlet - Review suggestion on reporting road usage by month (cultural and traditional activities) - Relay SEMC concerns on raising expectations in the Inuit employee survey to NHC - Touch base with NBS on Inuit employee survey, potential alignment	Baker Lake, NU, CA (City)	Nunavut
