Re: Meadowbank Project

The Nunavut Water Board received an application for a water license amendment from Cumberland Resources Ltd. for the installation of additional fuel vaults and the trenching programs associated with exploratory drilling.

Notice of this application will be posted at local organizations in Baker Lake.

The following documents are available through the internet on our ftp site at <ftp://ftp.nwb.yk.com> in the folder "NWB2MEA0204":

- notice in English and Inuktitut
- cover letter dated February 10, 2003
- application form
- proposed exploration program dated February 2003
- updated copy of A&R plan
- updated copy of fuel transport and storage management plan

**Please note** that we require comments as soon as possible on this file due to the short time left available for the proponent to get equipment on-site and off-site that's required for the trenching program.

**NWB2MEA0204** has been reviewed by NPC for conformity with the appropriate land use plan, has been screened by NIRB, and can now be processed by NWB. Parties involved in NIRB's screening can send their comments directly to NIRB as per their instructions. For all other parties, the Nunavut Water Board is accepting written concerns and comments with regards to this project before **May 16, 2003**.

Sincerely,

***Original signed by:***

Phyllis Beaulieu  
A/Licensing Administrator
