Good evening,

**Re: Agnico Eagle Mines Limited (AEM) Amarug Winter Access to IVR – KIA

2015 – NIRB 11EN10**

The Nunavut Planning Commission (NPC) has reviewed the materials as submitted related to the listed project proposal(s) and has determined that the proposed activities do not change the scope of the originally reviewed project under a NPC File # 'AANDC2013F0030 Winter access to IVR area Frenette Dec 13 CD' to an extent that would warrant a further review by the NPC at this time.

I have attached the terms agreed to as part of the applicable conformity determination which must form part of any authorisation, permit and/or licence issued for this project proposal.

Please ensure that any change in the scope of the project is forwarded to our office for further review.

I have copied the Nunavut Impact Review Board with this email for their information.

Please contact me should you have any questions.

Sincerely,

Brian Aglukark, NPC
