Hi Richard,

Please see DFO's comments for the 2BB-MEA1318 Water License Renewal Application:

"DFO is unable to assess the impacts to fish and fish habitat based on the information provided. To fully determine the impacts of this project on nearby aquatic species, we would require the following information:

- *GPS coordinates for the sites of water taking*
- *The types of waterbodies from which water is being removed*
- *Information on the fish species and aquatic environment where the water is being taken*
- *Total volume and/or instantaneous flow measurements for the waterbodies/watercourses from which the water will be taken"*

Thank you,
