Hello Christine,

In section 3 its noted: AEM will provide a date of completion for the removal of the contaminated soil being stored temporarily at the Amaruq exploration camp, to the inspector before August 25<sup>th</sup>, 2017.

To send you the better information regarding this subject, I would appreciate an additional 3 weeks since another AEM division will have to be involved in this work.

Let me know if this is acceptable for you,

Regards,
