Good Morning,

Pursuant to Water Licence 2BB-MEA1828, part B, item 6, the Licensee shall file an Annual Report no later than March 31st of the year following the calendar year being reported.

As some information contained in the 2021 report required some additional time to be correctly reviewed, I'm respectfully requesting a time extension until April 8th, 2022 to provide the Annual Report to the Board.

Should any additional information is required concerning this request, please contact me.

Regards,
