Hi Richard,

Thank you for the opportunity to comment. DFO would like to provide the following on the management plans:

The proponent is required to determine if a Request for Review is needed for the works , activities and undertakings specific to this project. The proponent is responsible for:

- understanding the impacts the project will likely have on fish and fish habitat
- taking measures to avoid and mitigate impacts to fish and fish habitat
- requesting an authorization from the Minister and abiding by the conditions of your authorization when it is not possible to avoid and mitigate project impacts on fish and fish habitat
- ensuring compliance with all statutory instruments, including federal and provincial legislations

Please refer to the [Project Near Water](#) website for more information and guidance

Please refer to the [measures to protect fish and fish habitat](#) website to see how to avoid impacts to fish and fish habitat

Thank you

José Audet-Lecouffe B.Sc. M.Env.
