REFERENCE POINT CHURCH — EGLISE (1st corner)

EASTING. Read number on grid line immediately to left of point.

LONGITUDE. 157. Note the number of the line of the quadrangle immediately to the right of the point.

Estimate tenths of a square from this line northeast to point.

Estimate the number of divisions of the grid between this line and the number on direction north.

NORTHING. Read number on grid line immediately below point.

LATITUDE. 48. Note the number of the line of the quadrangle immediately to the right of the point.

Estimate tenths of a square from this line northeast to point.

Estimate the number of divisions of the grid between this line and the number on direction north.
