Dear Mr. Balog:

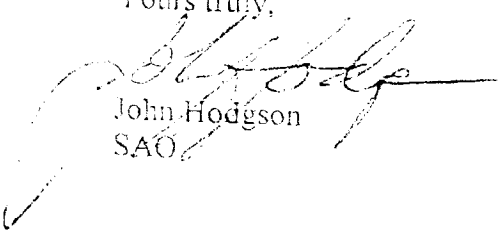

Further to your letter and my conversation with David I want to confirm that our Waste Disposal site will accept your waste as noted in your letter.

I have discussed this matter with our Public Works Department and there will be a tipping fee charged out at \$25 per 45- gallon drum.

Our new site when operational will have a specific area for your drop-off. In the interim please contact Arnie Brown for directions on where to drop off at the existing site.

Our monthly garbage rates are \$30 for residential homes and \$100 for commercial. More of our costs are now at the disposal end where we have to deal with things like metals and construction debris. Our rate of \$25 per barrel is reasonable considering that it is not domestic garbage but rather metals that often have to be handled, crushed or buried.

Yours truly,

  
John Hodgson
