Dear Ms. Payette,

Re: 07ENO## Comaplex Minerals Corp, KIA-KVCL102J168
NWB-070112-2BE-MEL-2007
Comaplex Minerals Corp - Meliadine West Gold Underground Exploration
and Bulk Sample

The NPC has completed its review of the above noted project proposal.
It conforms to the Keewatin Regional Land Use Plan.

Attached, for your files, is a copy of the list of conformity requirements to which
the applicant has undertaken to comply to.

Yours truly,

Bobby Suluk
Regional Planning Co-ordinator, NPC

Application # Underground Exploration and Bulk Sample - Molladine West Project

If yes, include with the application a mine closure and restoration plan. CONTACT: KIA - Attn: Luis Manzo, RANKIN INLET

23. Code of Good Conduct for Land Users: Appendix 2: The applicant undertakes to adhere to the Code of Good Conduct at all times.

Yes

No

I, B. Barham for Comaplex Minerals Corp. (name of applicant), certify that the information I have given in this application is true and correct and hereby make the above undertakings which form part of my application for a project proposal within the meaning of the Nunavut Land Claims Agreement.

Date: May 14/07 Signature of Applicant: B. Bar
for Comaplex Minerals Corp

Keewatin Regional Land Use Plan
Appendix G
Code of Good Conduct for Land Users

1. The landscape of each camp and other land use sites will be restored to its original condition to the greatest degree possible. Water quality will be preserved, and no substances that will impair water quality will be dumped in water bodies. When possible and feasible, old sites will be restored to the natural state.
2. All land users shall assist communities and government(s) in identifying and protecting archaeological sites and carving-stone sites, as required by law.
3. Generally, low-level flights by aircraft at less than 300 metres should not occur where they will disturb wildlife or people. If such flights are necessary, they should only take place after consultation with the appropriate communities. All land users are responsible for reporting to the land managers any illegal or questionable low-level flight.
4. All activities on the land will be conducted in such a fashion that the renewable resources of the area in question are conserved.
5. Whenever practicable, and consistent with sound procurement management, land users will follow the practice of local purchase of supplies and services.
6. Land users will establish working relationships with local communities and respect traditional users of the land.
7. During the caribou calving, post-calving and migrating seasons, land use activities should be restricted to avoid disturbing caribou, in general, and activities will be governed more specifically by caribou protection measures such as those contained in Appendix H.
8. Artifacts must be left where they are found. All land users are responsible for reporting to the location of, or any removal or disturbance of, artifacts to CLEY.
9. The mining industry is encouraged to assist in identifying local carving-stone deposits and report any discoveries to KIA. Industry is also encouraged to identify and report old waste sites that need to be cleaned up.
10. All land users shall obey the laws of general application applying to land use.
