Subject: NWB Water licence amendment from Comaplex (2BE-MEL0709)
Date: Monday, September 29, 2008 2:22:43 PM

Hi Phyllis,

On September 24, 2008, the NIRB received NPC's conformity determination for Comaplex's Meliadine project. The project proposal was for an amendment to their water licence (2BE-MEL0709) and potentially for their KivIA commercial licence. The NIRB is most likely going to do a minor screening (because it is an amendment and we've screened it before under 07EN044) and I just wanted to let you know. The screening of this amendment would be about 7 days long compared to our regular 45 days. I've contacted the proponent to request for additional information. Once, we've received the information, I'll send the information out for comments and recommendations

Cheers,

Sophia Granchinho, MSc. CEPIT
