**RE: NWB FILE # 2BB-MEL0709 Renewal Application**

Dear Ms. Beaulieu:

The Government of Nunavut, Department of Environment (DOE) has reviewed the Water Licence (2BB-MEL) renewal application from the Comaplex Minerals Corp., and has the following comments and recommendations to make based on the Environmental Protection Act.

Our review consisted of the following documents:

- Advanced exploration questionnaire
- Executive Summary English
- Renewal Application
- 2008 Annual Report
- Waste Rock Ore Storage Management Plan

DOE has conducted a cursory review of the renewal application in accordance with our departmental mandate. Although DOE commends the proponent for upgrading the camp wastewater treatment system, the proponent should provide more information on the Biodisk system and submit an updated waste management plan for review.

DOE thanks the NWB for the opportunity to provide comments on the Comaplex Minerals Corp.'s water licence renewal application. Please contact us if you have further questions.

Yours sincerely,
