Hi Bryan,
Thank you for your letter. As you are aware, Comaplex has addressed the security bonding matter with INAC, the KivIA, and the NWB in an effort to come to some sort of solution or compromise on the double bonding issue. In response to your letter of April 7, 2010, Comaplex provided a detailed written explanation of the steps it is taking to remedy this matter (April 12 letter from Comaplex). You were included in this correspondence. We are awaiting a response back from all parties.

As such, we feel we have acted in accordance with your April 7 letter as far as the timetable that you requested (and the May 12 deadline), and this matter is presently in the hands of various Boards and we are awaiting resolution. We look forward to working through this with the various groups.

Hi Phyllis,

Sorry to bother you but an email I just sent, you bounced back as undeliverable. Did you receive it? It was addressed to Bryan at INAC. Please let me know. Thanks.
