Phyllis...I have no problem with an extension to August 14th.

Regards,
John

As per the message below, INAC are requesting an extension deadline to August 14th regarding the above. Do you have any objections to this? There is no problem with granting an extension from our standpoint. Please respond to all parties on this email.
Regards,

Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board

Subject: 2BB-MEL0914 Recalculation of Liability

Good morning, Richard.

I would like to respectfully request an extension to the deadline for comments related to the above noted Security recalculation for the Meliadine Project (originally August 7, 2010). One week should suffice for finalizing our comments.

Thank you in advance for your understanding in this matter.

Best Regards,

Tanya
