Re: Copy of Rankin Inlet Authorization for Waste Disposal for NWB license #2BB-MEL0709

Dear Ms. Beaulieu,

As per the NWB request in their Decision Letter dated August 2, 2007 regarding the above license for the Meliadine West underground exploration and bulk sampling program (Part D.4), attached is the documentation outlining the waste disposal arrangement we have with the hamlet of Rankin Inlet. A similar arrangement has been in place for previous years for the property.

If you have any questions, please contact me in Calgary. Please acknowledge receipt of this email.

RE: Waste Disposal at Community Dump

Dear Mr. Balog;

Thank you for your letter regarding the disposal of waste in the municipal dump. As in years past we will permit you to dispose of your waste in the dump at a rate of \$25.00 per full barrel.

As you may know the hamlet will be commissioning a new land fill site this summer. We will let you know when that will occur when we decide on the actual date.

Yours truly
