RE: NWB FILE # 2BB-MEL0913 -- Revised Waste Management Plan

Dear Ms. Beaulieu:

The Government of Nunavut, Department of Environment (DOE) has reviewed the Revised Waste Management Plan for the Meliadine Project. The DOE has the following comments and recommendations based on the *Environmental Protection Act*.

- A Waste Manifest document must accompany all movements of hazardous materials, and all parties must register with the Environmental Protection Service at the GN-DOE. The general number for the Department of Environment is (867) 975-7700. This process and contact information should be stated in the Plan.

The DOE thanks the NWB for giving us the opportunity to review and provide comments on this submission from Comaplex Minerals Corp. Please contact me if you have any questions or comments.

Sincerely,
