RE: Update on Type B Landfarm Remediation

Ms. Wilson,

This letter is to provide you with an update on the remediation efforts to the Meliadine Landfarm.

The landfarm at Meliadine has had the slopes of the berms re-sloped to ensure protection of the liner from the natural elements. Please see photos attached. In addition, we have created water collection area on the west corner of the landfarm, to ease the removal of water from the landfarm.

I believe this meets your expectations. Should you have any questions or require further information, please do not hesitate to contact the undersigned.

Regards,

Jeffrey Pratt
