**Re: 2BB-MEL0914 – Revised Fuel Management and Spill Contingency
Plan, September 2009 – Comaplex Minerals Corp. – Meliadine West
Gold Project**

Please be advised that Indian and Northern Affairs Canada (INAC) has completed a review of the Revised Fuel Management and Spill Contingency Plan for the Meliadine West Gold Project. The plan was submitted to the Nunavut Water Board (NWB) by Comaplex Minerals on November 18, 2009. Attached is a Technical Review Memorandum for your consideration in the approval of the revised plan.

Please feel free to contact me should you have any questions or comments. I can be reached at (867) 975-4568 or by email at Ian.Rumbolt@inac.gc.ca.

Sincerely,

Technical Review Memorandum

To: Phyllis Beaulieu, Manager of Licensing - Nunavut Water Board

From: Ian Rumbolt, Regional Coordinator - Indian and Northern Affairs Canada – Nunavut Regional Office – Water Resources Division

Re: **2BB-MEL0914 – Revised Fuel Management and Spill Contingency Plan, September 2009 – Comaplex Minerals Corp. – Meliadine West Gold Project**

Background/History:

The Meliadine West gold project is an advanced exploration, bulk sampling project located 25 km west – northwest of Rankin Inlet in the Kivalliq Region of Nunavut. In 2008 the underground bulk sampling program was completed (no additional underground work scheduled for 2009); while in 2009 further surface drilling and exploration will continue.

Recommendations/Comments:

Fuel Management and Spill Contingency Plan

- 1) All fuels including drums and bladders should be relocated to the lined designated area as it appears to provide adequate secondary containment.
- 2) Comaplex should update contact information for Indian & Northern Affairs:

Peter Kusugak
Manager Field Operations
Ph: (867) 975-4295
Fax: (867) 979-6445

Andrew Keim
Water Resources Inspector
Ph: (867) 975-4289
Fax: (867) 979-6445
