Subject: Baffinland Iron Mines Corporation (BIMC); Submission of an Addendum to the Landfill Site Design Report for the Mary River Project; Licence 2BB-MRY0710

Dear Ms. Wray;

The Nunavut Water Board ("NWB") would like to acknowledge the receipt of the above document under Part D, Item 19 of Licence 2BB-MRY0710.

The technical review of the Addendum to the Landfill Site Design Report has been completed. The Board has taken into consideration the information submitted and hereby accepts the Addendum to the Landfill Site Design Report dated October 27, 2008.

Currently the only design drawings that the NWB has for the landfill site are those produced by Knight Piésold Consulting as part of the document entitled "Baffinland Iron Mines Corporation, Mary River Project, Bulk Sampling Program, Landfill Design and Operations". The Licensee is instructed to provide as-built plans and drawings, stamped and signed by a professional Engineer registered in Nunavut, within ninety (90) days of completion of construction of the landfill site.

Should you have any questions, please feel free to contact me at (867) 360-6338, at your earliest convenience.

Yours truly,

Deon Bridge
Technical Advisor
