Subject: RE: Approved Water License NWB2MRY0406 - Baffinland Iron Mines Corp.

Attached is the spill plan that was submitted with the application in March and remained on our ftp site until the license was issued. Once the licenses are approved by the board the application documents are removed from our ftp site. As you will see from the approved license (I can send you a copy of it if you need it) the proponent is required to send in an addendum to the plan within a specified period of time.

Yesterday, June 15th, when I received notice from Earle of your name to be added to my distribution lists, it was done. You should now receive all notifications of new applications as well as notice of various technical documents requiring review. Any other questions, please don't hesitate to contact our office.

Subject: FW: Approved Water License NWB2MRY0406 - Baffinland Iron Mines Corp.
Importance: High

Hello Phyllis,
Thanks for sending the info on the approval of the water license for Baffinland Iron Mines Corp. (NWB2MRY).

We are disappointed on the fact that we have not reviewed the spill contingency plan submitted by the Proponent. I've checked the NWB ftp site and was unable to find it. (I assume the proponent submitted a plan based on the comments by other reviewers)

Please send me a copy at your earliest convenience. As you might know, Spill Contingency Planning and Reporting is regulated under the Nunavut Environmental Protection Act.

Also, please add my to your contact list for water licenses (as previously requested by Mr. Earl Baddaloo).

Don't hesitate to contact me if you have any further questions.

Thanks

Gladis Lemus, Ph.D.
