Re: Submission of the Exploration Spill Contingency Plan to the Nunavut Water Board

Dear Phyllis,

In accordance with Part G, Item 1 of NWB Type B Water Licence No 2BE-MRY1421, please find attached the stand-alone Exploration Spill Contingency Plan, Rev 0.

As exploration activities for 2014 will be limited to areas in and around deposit No.1 at the Mary River Mine Site; Steensby Camp and Mid-Rail Camp are not in operation; and future potential satellite camps will not be utilized in 2014, Baffinland is requesting a 30 day extension to submit a revised, stand-alone, Abandonment and Restoration Plan under Part I, Item 1 of the Type B Water Licence No 2BE-MRY1421. This Abandonment and Restoration Plan will encompass only activities planned to occur in 2014.

Please do not hesitate to contact the undersigned should you have any questions, comments, or require any clarification.

Sincerely,

A handwritten signature in black ink, appearing to read "O. Curran".
