RE: Statement and Certificate of Capacity of West Kitikmeot Gold Corp. - Assignment of Water Licence 2BE-ABP1823

Ms. Kubeisinova,

I Brendan Bell, CEO of West Kitikmeot Gold Corp. ("WKG") do state and certify for and on behalf of WKG, in my capacity as an officer of WKG, and not in my personal capacity that:

1. The Arcadia Bay Property (the "Property"), located on Inuit Owned Land Parcel CO-31, is owned and operated by a partnership between Nunavut Resources Corporation ("NRC") and Transition Metals Corporation ("Transition");
2. In June 2018, Transition, acting on behalf of the partnership, was issued Nunavut Water Board ("NWB") licence 2BE-ABP1823, authorizing water use and waste disposal related to camp and drilling activities at the Arcadia Bay Project;
3. In October 2019, NRC assigned its interest in the partnership to its subsidiary West Kitikmeot Gold ("WKG"), whereas WKG has become the operator of the Property;
4. As part of the Transaction Agreement, Transition must assign water licence 2BE-ABP1823 (the "Licence") to WKG. This statement and certificate is in support of an application for assignment of the Licence submitted to the Nunavut Water Board by Transition as Assignor and WKG as Assignee;
5. I am duly authorized to bind WKG in connection with the documents submitted by WKG with the application for the assignment of the Licence for the purpose of applying for the assignment of the Licence to the NWB;
6. WKG is capable to implement the conditions of the Licence and undertaken to follow and apply the schedule for the implementation of all plans, manuals and reports as required by the NWB from time to time.

Dated at the City/Community of Kelowna, in the Province/Territory of British Columbia, as of April 21, 2021.

Brendan Bell
CEO, West Kitikmeot Gold Corp.
