Public Registry

Dear Ms. Beaulieu, Mr. Manzo, Ms. Payette,

Re: KIA File # KVL308C09 Angilak Project - Exploration - Iron Oxide Copper Gold and Uranium

The NPC has completed its review of the above noted project proposal. It conforms to the Keewalin Regional Land Use Plan (KRLUP), subject to the attached.

By this letter and additional enclosures, the NPC is forwarding the project proposal with this determination to NIRB for screening.

The applicant has undertaken to comply with the attached requirements. The authorizing agencies to which this letter is addressed are responsible under the *Nanavut Land Claims Agreement* to implement any of the attached requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

My office would be pleased to discuss with these agencies how best to implement these requirements and to review any draft authorizations that the agencies wish to provide for that purpose.

And, this conformity determination applies only to the above noted applications as submitted. Therefore, the proponent must ensure other applications for a permit under

this project proposal not listed above are forwarded to NPC for a conformity determination against the KRLUP, and notify the NPC immediately if any material to the project proposal is changed before authorizations are issued.

Yours truly,

Bobby Suluk

Regional Planning Co-ordinator, NPC

Ce: Mr. John Robbins, Kivalliq Energy Corporation

Jeffery Howell, INAC

NUNAVUT PLANNING COMMISSION APPLICATION TO DETERMINE CONFORMITY WITH THE KEEWATIN REGIONAL LAND USE PLAN

All applicants for a project proposal shall comply with the requirements listed below. The relevant sections of the plan are noted in each requirement

GENERAL

2.	Environ	menta	l Prot	lection:	s2.4.9:	The	applicant	undertake	s to
	prevent	any	new	occurr	ences	of	pollution,		
	contamin	ation	at the :	site of th	ne deve	lopm	ent.	_ •	

No

3. Removal of Fuel Drums: s2.4.9: The applicant undertakes to remove all drums safely from the site and dispose of the drums in a safe manner.

No

4. New Site Restoration and Clean Up: s2.4.15 and Appendix 2, sl: The applicant undertakes to clean up the site and restore the site to its natural condition to the greatest extent possible.

No

5. Old Site Restoration and Clean Up: \$2.4.10: The applicant undertakes to clean up the site and restore the site to its original condition to the greatest extent possible, including any work required due to the applicant's action prior to this application.

No

6. Low Level Air Flights: s5.4.4 and Appendix 2, s3: Will the applicant avoid low-level flights?

but . ..

No

 If not, explain why such flights are or may be absolutely necessary.

Low level frights will only be flown when weather requires

7. Caribou Protection Measures.s2.4.6 and Appendix 3: Will the applicant comply with the Caribou Protection Measures outlined in section 2.4.6 and in Appendix 3?

No

8. Caribou Water Crossings: \$2.4.6 and map: Will the applicant avoid, between May 15 and September 1, to construct any camp, cache any fuel or conduct any blasting within 10 km of any Designated Caribou Water Crossing identified on the certified Caribou Protection Map?

No

ARCHEOLOGY

9. Reporting of Archaeological Sites: \$4.4.3 and Appendix 3, \$2 and s8: Will the applicant immediately report the discovery of all suspected archaeological sites to the Department of Culture, Language, Elders and Youth (GN)?

No

PARTICULAR ACTIVITIES

23. Code of Good Conduct for Land Users: Appendix 2: The applicant undertakes to adhere to the Code of Good Conduct at all times,

Νo

Allison Rippin Armstrong on behalf of

Kidalia Everay Corp. (name of applicant), certify that the information have given in this application is true and correct and hereby make the above undertakings which form part of my application for a project proposal within the meaning of the Nunavut Land Claims Agreement.

Dil 29/08 Signature of Applicant:

Keewatin Regional Land Use Pian Appendix G Code of Good Conduct for Land Users

- The landscape of each camp and other land use sites will be restored to its
 original condition to the greatest degree possible. Water quality will be
 preserved, and no substances that will impair water quality will be dumped in
 water bodies. When possible and feasible, old sites will be restored to the
 natural state.
- 2. All land users shall assist communities and governments) in identifying and protecting archaeological sites and carving-stone sites, as required by law.
- 3. Generally, low-level flights by aircraft at less than 300 metres should not occur where they will disturb wildlife or people. If such flights are necessary, they should only take place after consultation with the appropriate communities. All land users are responsible for reporting to the land managers any illegal or questionable low-level flight.
- 4. All activities on the land will be conducted in such a fashion that the renewable resources of the area in question are conserved.
- Whenever practicable, and consistent with sound procurement management, land users will follow the practice of local purchase of supplies and services.
- Land users will establish working relationships with local communities and respect traditional users of the land.
- 7. During the caribou calving, post-calving and migrating seasons, land use activities should be restricted to avoid disturbing caribou, in general, and activities will be governed more specifically by caribou protection measures such as those contained in Appendix FL
- Artifacts must be left where they are found. All land users are responsible for reporting to the location of, or any removal or disturbance of, artifacts to CLEY.
- The mining industry is encouraged to assist in identifying local carving-stone deposits and report any discoveries to KIA. Industry is also encouraged to identify and report old waste sites that need to be cleaned up.
- 10,All land users shall obey the laws of general application applying to land use.

KIA Sample Land Use Plan Caribou and Muskox Protection Conditions

- 35. The Permittee is given permission to conduct the approved land use operations between May 15 and July 15, provided that when caribou and muskox cows are approaching the area of operation, the Permittee shall cease blasting, overflights by aircraft at any altitude less than 300 meters above ground level, and the use of snowmobiles and ATVs (all-terrain vehicles) outside the immediate vicinity of the camp. Other activities shall also be suspended if the caribou approach the immediate vicinity of the specific operation and the monitoring work (described in another clause) indicates that there is stress on the animals.
- During the presence of caribou and muskox within sight and sound of camp, all personnel will remain quietly in camp.
- 37. The Permittee may resume activities prior to July 15 if the caribou and muskox cows have ceased to use the area for calving and post-calving.
- 39. The Permittee shall not locate any operation so as to block or cause substantial diversion to migration of caribou.
- 40. The Permittee shall cease activities that may interfere with migration or calving, such as airborne geophysics surveys or movement of equipment, until the migrating caribou have passed.
- 41. The Permittee shall not conduct any operation within 5 km of any "Designated Crossing" as outlined on the map annexed to this Land Use Permit.
