Dear Ms Baker,

**RE: Request for Information
Angilak Project, Kivalliq Energy Corporation
NWB File No. 2BE-ANG0813**

Thank you for your questions regarding Kivalliq Energy's water license. Our exploration program operated only briefly this summer and was quite small when compared to other projects in Nunavut.

To directly answer your query; Kivalliq Energy did not base any operations out of Rankin Inlet this summer and as such, there were no flights, supplies or backhauls to or from this community. Likewise, no hazardous waste was disposed of in any Nunavut community.

Regards,
Jeff Ward
VP Exploration
Kivalliq Energy Corporation

Cc: Phyllis Beaulieu Manager of Licensing, Nunavut Water Board
Allison Rippen Armstrong, Environmental Consultant
