**RE: Comments Response for Angilak NWB Water Licence 2BE-ANG2227
Assignment**

Valore Metals Corp. and 5833 Nunavut Ltd. have reviewed the comments provided from Crown-Indigenous Relations and Northern Affairs Canada ("CIRNAC") regarding the Angilak Property NWB Water Licence 2BE-ANG2227 assignment application. The companies would like to express their appreciation for the time CIRNAC staff spent reviewing the licence assignment application and providing their comments.

Response to Crown-Indigenous Relations and Northern Affairs Canada

CIRNAC #1: Project comprisal

As per the Nunavut Map Viewer, (<https://services.aadnc-aandc.gc.ca/nms2-scn/gv/index.html>), the Angilak Property currently comprises 55 Active Mineral Claims (50 mineral claims still show expenditure suspensions due to Covid relief) and 1 Mining Lease at the Angilak Property, held in the name of ValOre Metals Corp.

CIRNAC #2: Water Usage

The 2022 Water Consumption Logs are located in Appendix I of the 2022 Angilak Annual Report ("230331 2BE-ANG2227 2022 Annual Report-IMLE.pdf"), located on the Nunavut Water Board ("NWB") ftp site at:
<ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2B/2BE%20-%20Exploration/2BE-ANG2227%20ValOre%20Metals%20Corp/3%20TECH/B%20GENERAL/2%20ANNUALRPT/2022>

For convenience, a summary of the daily water usages for the three intake is attached and confirms the water use did not exceed the daily authorized amounts.

CIRNAC #3: Updated Plans

The Angilak management plans were only updated to reflect the change of ownership, as 5833 Nunavut Ltd. has committed to following the policies procedures outlined in all of the current Angilak management plans, in addition to all regulatory permit and licence terms and conditions.
