

**NON-TECHNICAL SUMMARY – AMENDMENT APPLICATION 2010**  
**Angilak Property – Kivalliq Energy Corp.**

Kivalliq Energy Corp. has been operating on the Angilak Property since 2008. The current water licence permits for a total daily allowed volume of 58 cubic metres, 50 cubic metres for drilling and 8 cubic metres for domestic use at the camp.

Kivalliq Energy Corp. is optimistic about the 2010 field program and would like to operate a second drill at the site and is therefore submitting an amendment application to allow for additional water to accommodate the drills. The volume being applied for is 100 cubic metres daily.

Earlier this year Kivalliq Energy Corp. received permission to move the camp to a more suitable location.

Kivalliq Energy Corp. conducted community meetings earlier this year and remains committed to hiring local people, utilizing local businesses wherever and whenever possible and to operating in a safe and environmentally friendly manner.
