Re: Application Acknowledgement for the Angilak Project

Dear Allison:

The Nunavut Water Board acknowledges receipt on April 20, 2009 of an amendment water license application for the above project. We undertook a preliminary review of the application and conclude that it does not contain sufficient information for the NWB to evaluate the qualitative and quantitative effects of the use of water or the deposit of waste on water. Specifically, we are asking you to provide the following:

- Water Licence Application Form (duly signed)
- Executive Summary in English and Inuktitut
- GPD Lats and Longs of proposed camps (two potential sites have been identified. One site should be chosen or an explanation should be provided as to why there are two)

We will resume the processing of your application once we receive the requested information.

Please call the undersigned at (867) 360-6338 or email at licensing@nunavutwaterboard.org if you have any questions.

Sincerely,

Original signed by:
