Hi Michael,

Thank you for following up on my inspection report of 2013. Based on this e-mail and the attached photo, I am now satisfied that the reclamation requirements of the above water licence and land use permit have been met. I do not feel that further action or inspection is required.

Lands Administration and the NWB may now cancel/close these authorizations when they are satisfied that administrative requirements have been met.

Regards,

Eva Paul

Hi Eva,

Hope you're well! Attached is a copy of the 2BE-ANI0813 inspection report from last year, along with a picture of the door/frame you noted at the site. We had someone from MMG at Izok Lake (Pete – who I hear you are familiar with) go out and grab it as they're in the area at the moment. Unfortunately they did not get an "after" shot like I'd asked them too – I am hoping that the picture they took of the actual site and door/frame will hopefully satisfy your request to remove it from the site. If not let us know and we can maybe try to get the guys from Izok to go back up for an "after" shot on another trip.

Regards,

Mike

That's fantastic, thanks Eva! Let me know if you need anything else.

Cheers,

Mike
