Re: **2BE-ANI0813 – Annual Report, 2008 – North Arrow Minerals Inc. – Anialik River Project**

The 2008 Annual Report satisfactorily addressed the applicable requirements of Part B, Item 2 of the current water licence #2BE-ANI0813. Most of the conditions under the water licence were not applicable this year as no exploration work was conducted on site in 2008. Therefore due to the site not operating the following information was not provided in the 2008 Annual Report.

Part B: Item 2, (b): a list of unauthorized discharges and a summary of follow-up actions taken;

Part B: Item 2, (d): A summary of all information requested and results of the Monitoring Program;

It is expected that the licensee will provide the above information in any subsequent annual reports should project activity occur.
