**Subject:** Re: Acadia Project Outstanding Information

Hi Mrs. Paul ,

I do apologize for the delay in getting back to you , was waiting for some of the blanks to be filled in , with regards to the unknown about 2nd camp .I have not received any new info on these items yet . The additional work was never factored into our budget , and now must be priced nd approved by my client .

You are correct , I did not have the opportunity to get back to the site this season ,Will be doing so this winter & spring, which will be further outlined in our written plan , hope to get that to you soon . With regards to the original clean up not getting finished on time , that was due to time constraints and equipment breakdowns , and if I had known that it was that time sensitive , I would have tried a different approach . I do have to say , it would not have been enough to satisfy your department anyway , as we did not know about the other sites.

I understand the seriousness of the issues at this site , and can assure you and my client , we will get them dealt with , I have just been very busy with other projects and have not been able to complete the plan yet .

Regards,

Grant Newman
