Dear Kitikmeot Distribution List

Re: Your comments on this application.

NIRB#: 04CN113

RE: Exploration by Kennecott Canada Exploration Inc.

The Nunavut Impact Review Board (NIRB) has received two land use applications for exploration on Inuit Owned Lands from the Kitikmeot Inuit Association (KIA). The project was screened in October 2004 for the Crown Land portion.

As there are no new activities associated with the project, NIRB is proposing that the new application be distributed for any additional comments. You can view the INAC land use application and comments received at the following link

<http://ftp.nunavut.ca/nirb/Screenings/2004/04CN113-Fuel%20Cache,%20South%20of%20Frost%20Lake,%20Kitikmeot/>

A copy of the Screening Decision Report is also available.

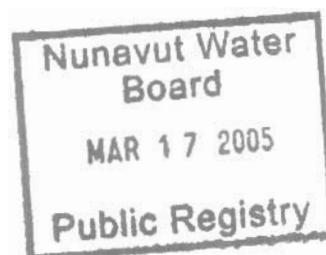

Please forward your comments and recommendations to NIRB by February 24, 2005.

If you have any questions regarding the application, please do not hesitate to contact our office. Your input is greatly appreciated.

Yours truly,
