**Re: 2BE-AUR---- – Additional Information - New Water License
Application – Aura Project – Kivalliq Region - Uranium North
Resources Corp.**

Please be advised that Indian and Northern Affairs Canada (INAC) has completed a review of the additional information associated with the new water license application for water license 2BE-AUR---- (Aura Project) submitted by Uranium North Resources Corp. The Nunavut Water Board (NWB) circulated the additional information for comments on May 19, 2011. All documents related to the additional information posted on the NWB ftp site under 2BE-AUR---- were included in my review (See attached Technical Review Memo).

Should you have any questions or comments, please do not hesitate to contact either myself at (867) 975-4282 or by email at ian.parsons@inac.gc.ca or Eva Paul at (867) 975-4568 or by email at eva.paul@inac.gc.ca.

Sincerely,

**Re: 2BE-AUR---- – Additional Information - New Water License
Application – Aura Project – Kivalliq Region - Uranium North
Resources Corp.**

Background

The Aura Project is located approximately 335 km west of Arviat in the Kivalliq Region of Nunavut.

The planned site will accommodate 12-20 people for approximately 6 months and consist of 4 sleeping tents, kitchen, first aid tent, dry and office accommodations, core shack, outhouse, generator shack, helicopter pad, incinerator and a fuel cache.

Recommendations/Comments

INAC has few problems with the additional information associated with new water license application 2BE-AUR----.

INAC recommends that all recommendations outlined in a letter dated May 9, 2011 to the NWB are still active until the NWB is satisfied that all requirements under the application for a water license are met.
